Anisotropic filtering	Off	Preferred refresh rate (LG Electronics 27G...	Highest available
Antialiasing - FXAA	Off	Shader Cache	Off
Antialiasing - Gamma correction	Off	Texture filtering - Anisotropic sample opti...	Off
Antialiasing - Mode	Off	Texture filtering - Negative LOD bias	Allow
Antialiasing - Setting	None	Texture filtering - Quality	High performance
Antialiasing - Transparency	Off	Texture filtering - Trilinear optimization	Off
CUDA - GPUs	All	Threaded optimization	Off
DSR - Factors	Off	Triple buffering	Off
DSR - Smoothness	Off	Vertical sync	Off
Low Latency Mode	On	Virtual Reality pre-rendered frames	1
Multi-Frame Sampled AA (MFAA)	Off		

Scaling
Size

Select a scaling mode:

☐  Aspect ratio

☐  Full-screen

☒  No scaling

Perform scaling on:

Display ▼

☐ Override the scaling mode set by games and programs
